bose sounddock 10 digital music system manual

Learn more or change settings here. Just type your request below Quick tip Try searching for just one or two words e.g., connection help. It is neither designed nor tested for use outdoors, in recreation vehicles, or on boats. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. Installing the Bluetooth dock 1. Disconnect the SoundDock 10 system power cord from the AC outlet. 2. Lift up the back edge of the universal dock adapter A and remove it from the dock. You may need to insert a thin nonmetallic utensil into the slot to provide the required leverage to lift the back edge. NOTE You can use the SoundDock 10 remote to control the connected music phone. If your stereo Bluetooth music phone becomes disconnected because it is out of range, the dock automatically tries to reconnect with it the Bluetooth light flashes during reconnection. Then use the Bose SoundDock 10 remote to control the system volume. The data transfer light on the dock tells you how well the Bluetooth dock is receiving data from your phone. To contact Bose directly, see the address list included with your SoundDock 10 system or visit on the Internet. Limited warranty Your SoundDock 10 Bluetooth dock is covered by a limited transferable warranty. Any changes to this device not expressly approved by Bose Corporation may void the user's 12. The Sound Dock 10 Bluetooth system lets you enjoy your entire digital music collection in powerful, lifelike sound and generous tonal range delivered by Bose waveguide technology. Dock your iPod or iPhone or stream from your Bluetooth device, like a Smartphone, tablet or laptop. Connect other devices with the auxiliary input. Get more out of your music experience. Go ahead, indulge. The SoundDock 10 Bluetooth digital music system is ideal for parties, gatherings and your own personal listening. With its versatility and audio performance, you may make it the primary system for all your digital music. You'll enjoy lifelike, full range sound that fills even the largest room in your home. Dock your iPod or iPhone. Or stream from any Bluetooth device.

Control your music selections with your iPhone, iPad or any Bluetooth device. The high performance of Bose technology As you listen youll experience a vast tonal range, from the deep lows of a bass line to the soaring highs of a vocalist. This range is made possible by exclusive waveguide technology engineered around a highperformance woofer. And it means youll enjoy all your music in sound that makes you want to sing and dance. Easy to enjoy Though complex on the inside, the SoundDock 10 Bluetooth system is delightfully easy to use, with an equally uncomplicated exterior design. Just place your compatible iPhone or iPod into the dock and play. The system charges the iPhone or iPod while its docked. The remote control lets you conveniently operate the system and navigate among your playlists. And when you want to switch to a Bluetooth device, just swap out the dock for iPod for the Bluetooth dock and wirelessly connect with any Bluetooth devicesmartphone, tablet, laptop, etc. In a snap youre ready to stream music stored on your device or from Internet sources like Pandora or Spotify. Need to multitask You can keep using your device while you listen to the music. Switching from the dock for iPod to the Bluetooth dock is quick and easy. System Features Advanced waveguide speaker technology only from Boseenables fullbodied sound, especially in lower registers, for more naturalsounding bass and percussion instruments. Specially designed woofer has a larger magnet than conventional woofers for powerful performance, with low notes you can feel. Bose digital signal processing circuitry enables finer control over the sound for more consistent, lifelike music reproduction even at low volume levels. The system is Applecertified and compatible with most iPhone and iPod models. Just dock your iPhone or iPod and enjoy your music in lifelike, roomfilling sound. Remote control handles power, volume, track seek, and iPod playlists from almost anywhere in the room.

Product Details Product Dimensions 8.7 x 17 x 9.6 inches; 18.5 pounds Shipping Weight 22.5 lbs Whats in the box Remote controls system power and volume and iPhone or iPod playlist navigation. Proven performance. Sleek design. The SoundDock Series II digital music system delivers unexpected sound quality from compact speakers for your iPhone or iPod. Plays other sound sources, too. Remote also controls iPod playlist navigation. It provides Bose quality sound for your iPod or iPhone wherever you like, plus system protection during travel and more playing time when you arrive. Play your iPhone or iPod out loud almost anywhere, indoors or out. A rechargeable lithiumion battery included provides more power and longer playing time than most rechargeable batteries. The rotating docking station disappears for storage and protection during transit. And a molded handle makes it easy to carry the system from place to place. No extended warranty, only warranty through manufacturer if applicable. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Jacob Whigham 5.0 out of 5 stars To my delight, they emailed me back saying they would honor that price. Also the expected arrival date was like 8 days after ordering it so I began to get slightly irritated thinking it wouldnt get here for that long and I had paid for expedited shipping. Also to my delight, they shipped it and I got it the very next morning. I do like the option of the Bluetooth vs ipod dock since I have the 30 pin and its the 8 pin connect however it is kind of weird that they didnt just integrate that option into the device itself. Bose, I am impressed by your products and your service has always been on point. Both of the systems I own are amazing.

I went through 3 pairs in less than 2 years time. The wires within twisted up and shorted out 2 of the 3 pairs and the third which was my original first pair which didnt stay in the ear that well while running and then shorted out as well. Bose has come along ways and are always improving their gear. I love my Bose and their service.I have one that is ten years old and still going strong. I purchased this one for a backup when my current one eventually fails. Bose wont be making anything this good again. Products that last are not conducive to capitalism. The unit weighs in at around twenty pounds. The newer ones weight less than half that. Get one if you can still find one.

Good luck. The iPod had a bit of intermittent static which has grown worse. Now there are times when the sound just goes away for minutes at a time. It's as if there is a loose connection inside. It is in my shop and it was hardly used during the summer. I am just now trying to use it on a more regular basis and it is getting worse every day. Took a chance hoping I wouldn't have to return it. Chance paid off. I'm very satisfied with purchase. My only hope now is to get plus years of enjoyment from item purchase. Thanks, Geekey. The SD10 completely fills up the room with wonderful distortion-free sound. Tonality is excellent, with those famously crisp Bose mids and highs. The bass is really good for a unit of its size, as the bass port on the back really helps add a nice little thump. The units also pretty heavy and very well made. I was pretty hesitant to buy the SD10 because of the hefty price tag, but I'm really glad I decided to go with it. And this thing is plenty loud, loud enough that you will have difficulty having a conversation when it's blasting. I usually don't listen to it that loud, but you can if you want to. No, you're not going to feel the death metal pounding on your chest, but if that's what you're after, go for a full system with a big powered subwoofer.

I was looking for a small inconspicuous unit that looked nice and could fill up a big room for casual listening. The SD10 does all that very well, and just completely fills the room with great sound. Now for some good old-fashioned nitpicking. As others have mentioned, the Bluetooth should have been integrated, as opposed to being a module that you have to insert. No biggie for me I placed my SD10 in a tall builtin, and will never use it to charge my phone anyway. For some people that want to physically dock their phones for charging, that will be a real drag. As to the Bluetooth itself, it worked really well, but several times it seemed to drop the signal for a second or two but never really lost it when I walked into other rooms in the house. Overall, it really wasn't a problem, but I thought I'd make a note of it here. In regard to aesthetics, the shape and style of the SD10 is great. I would have preferred a black color scheme as opposed to the silver one that Bose went with, but that's just me. Most people would probably prefer the silver anyway. Ok, so I gave the SD10 a 5 star rating. I probably should have taken a star off for the price tag and some of the drawbacks I noted above. However, I like it so much, I just didn't have the heart to give it a 4 star rating. I couldn't be happier with the system and do not hesitate to recommend it for casual listening. The SD10 really just blends into its surroundings and fills my great room with awesome sound. That's asking a lot, and the SD10 succeeds completely. Though I wish for an equalizer that I can set, I can get close with the EQ settings on the Pod. Even received compliments from our neighbors 4 houses down. Not so the Bose. I pretty much use it solely to control the volume for everything else I use the controls on the Pod. A minor irritant that vanishes as soon as the music starts. Sorry, we failed to record your vote.
